ABSTRACT

Web services are becoming a common and convenient means of doing business over the Internet. More-and-more web services are kept on arriving over the Internet, offering the same set of services to the end users. The availability of similar web services increases the complexity of discovery as well as the selection process of web services. The traditional way of discovery of web service involves keyword based searching followed by manual selection. The keyword based search is not efficient. In this paper, we have used an improved mechanism for web service selection based on website as a negotiator. As interest in website owners arises not only to keep their customers but also increase the number of deals and interests. By effective negotiating, more income, than any other competitors will be obtained. Improving in business has number of rules which sellers should obey. The business rules such as negotiation, body language, time management, and selling strategy have been completely discussed in M.B.A And D.B.A courses. At the same time, for websites there is not that much information. In this study we are going to introduce new rules for websites to act more effective as a negotiator. Company managers before any negotiation, should choose the best negotiator. This duty has different step. Important step is that the negotiators should be studied different courses related to strategy of negotiation. Second step is to realize customers' position on the negotiation table and his personal behavior. Now a day's websites are an important negotiator for any companies. To be the best in this mission we use first step the iridology and position of computer comparing to user's place; Second step is to realize astrology, not only for the company speakers but also for the other side as well; third step is to realize biorhythm, not only for the company speakers but also for the other side as well and the fourth step is prediction by the use of present condition and situation of moon and other planet which affect not only our way of thinking but also the earth condition.

1. Introduction

One way to ensure business agility and efficiency is to be the winner in business negotiating. In this way, supported interfaces, pricing, availability, actions to be performed when violations occur and endured is very important factors. On the other hand the most important factor is feeling convenience by users. For instance suppose someone goes shopping in the shop A, the prices is cheaper than other shops and seller deliver goods very fast but he/she does not feel comfort.

Otherwise In the shop B, not only offer cheap prices and fast delivery but also make satisfaction for the customer during shopping. As a result he/she prefer to buy from shop B. in this research we are introducing, how we could make our service selectors feel more comfort during their work in composite web services. To achieve this goal we use iridology and place of computer on the table of customer. By place of computer on the table of user we can predict how user feel about our web information. In the same fashion by users' iridology, astrology, biorhythm, moon and other planet positions, we can predict his/her manner. Hence we can predict his/her future activities in the composite web service. By predicting him/her we can make him/her more comfort during the usage of composite web service. It means not only we can consider to be the winner in the business negotiation but also we can increase the users due to their convenience in our composite web services.

Service model (1) able to express both technical and business quality aspects, and (2) which considers both programmer and final user perspectives. In a Service Oriented Architecture, our quality model can

be adopted by the Web service broker to identify which is the best Web service among a set of functionally equivalent Web services. Such a selection considers the quality of Web service along with the user preferences combining two decision making models: cost-benefit analysis and Analytic Hierarchy Process (AHP). For the sake of simplicity, we assume that our quality-driven selection process commences when a set of functionally equivalent Web services has been previously identified [1], the composition of services is used to implement complex functionality. The quality of service (QoS) is a demanding issue for the management of service compositions. A QoS-aware service selection recommends the services to be composed to account for the quality of a service composition and its execution cost incurred by requests. It is shown that in the presence of sophisticated service charging a cost minimization objective imposes the need for a request- and service composition-comprehensive service selection. This type of selection is called a tactical service selection. Existing tactical service selection models assume a deterministic execution environment. The need to adjust a service composition during the execution of a request to react on uncertain QoS attributes and service failures is neglected. Service reconfiguration approaches are proposed to deal with service failures, uncertain QoS attributes, and their impact on QoS restrictions. The challenge addressed in this paper is to propose a hierarchical service selection that integrates a tactical service selection with a service reconfiguration to satisfy the cost minimization objective and to maintain a successful execution of requests. It is shown that the tactical service selection can be efficiently combined with an existing service reconfiguration method to achieve both runtime-related goals and tactical objectives [2].

Currently, there is no work discussing and conveying a way which can easily attract web customers by predicting their activities; however, there are a lot of works discussing the best logical ways that direct web-customers to their goal. These works are mainly focused on logic solution to obtain shortest and economical way to the goal. Unfortunately, none of the works predict the web-customers' activity as well

as their feeling in the service selection. This research successfully build the completed first step towards achieving the use of predicting web-customers' activities in service selections to present the best feeling and comfort to achieve their goal. [19]

3. Discuss

In the websites, there are many methods for predicting the customers' actions who attend the websites. The first way is to predict the customers' action by previous log files of her/him. The second way is statically predicting her/his action. The third way is the information of websites' attenders' IPs. The advantage of our method is not only using less storage capacity but also getting more accurate results. Now we will explain, how we can predict any websites' customers. They are from all over the world. We predict their activities without using large storage capacities. We do not keep archive log files of any single customers. The intelligent websites which are able to predict their customers' activities by using individual archive logs of previous customers' activities admit unsuccessfulness. In this study we get our customers eye scan and place of the computer on her/his table. In the welcome screen, we use eye scan as a password, then we direct her/him to the different theme and different written manners of our websites. He/she will feel very comfort with it, because it has been designed for his/her personality at that time. To describe our method firstly we should explain the iridology. Dr. Jensen's Guide [4], and other books and papers such as [3], [5],[6] and etc. Shows that not only eye scan shows the behavior of the people but also convey her/his diseases. As the main psychological behavior we have four different type of activities due to the people iridology. The psychological behavior can be predicted by eye scan and comparing with the four main known samples.

Fig. 5

Fig. 6

Fig. 7

Fig. 8

Fig. 5 to Fig. 8 shows four main type of eye scan which each one of these shows four different main manner of people. Fig. 5 convey the people with the idealist manner. On the other hand Fig. 6 shows the people who likes money, properties and business. The Fig. 7 belongs to the people who enjoy tours and trips. Last figure Fig. 8 disclose scientific people. Hence if when we are negotiating with an idealist person the logical way of talking is quite differ to negotiating with scientific people. In the same manner in the composite websites we should use different themes, different manner of text and different ways of

logical reasons to be the winner. If we want to divide these people in the hot manner and cold manner. We can say Fig. 2 and Fig. 4 are hot people and Fig. 6 and Fig. 8 are cold people. Now we want to discuss about the position of computer on the table of our users [7], [8], [9], [10], [11], [12], [13], [14], [15], [16], [17], [18].

Fig. 9

In Fig. 9 the place of computer is on the right side of user so the user feels very friendly with computer. In this case the text in the website is most effective on the brain of user. The user mostly uses the computer as a good friend and during the usage, user does not feel any stress.

Fig. 10

In Fig. 10 the place of computer is on the left side of user so the user feels the computer as a boss or director. In this case the text in the website is disturbing the brain of user (mostly when the user is hot manner person). The user mostly uses the computer as a boss or director, user feels should obey the computer.

Fig. 11

In Fig. 11 the place of computer is on the front side of user so the user feels the computer as a competitor. In this case the text in the website is mostly make the brain of user to find a way to convey the computer's text is wrong. The user uses the computer as a competitor, user mostly feels to compete with the computer.

Hence when we want to obtain the most benefit from the composite web users we should consider not only the psychological manner of the user but also the position of our negotiator in her/his place. It is very clear that if we are negotiate with one ideologist person and we are sitting on her/his write side is quite different to sitting on the left hand of him/her. This is very important to consider the psychological manner of the composite web user and also the position of our negotiator in his/her place (the computer). To win any kind of negotiation, to predict other side of negotiation psychological manner is the must. To choose the best position to other side, is also very important for winning the negotiation.

Now we try to describe how we use the composite web users' eye scan and the position of computer via users. After getting online images through our composite web service, we send it to the function named "Negotiator". In this function we compare the eye scan with our four main different eye scan, and also we compare the users' image to verify position of computer via user. The output of this function as shown below will call another function named "TheWayOfNegotiation". This called function will decide about

the different kind of written text, themes of screen, the logical way of proof and the sensitive ways to direct the composite web users to our goal. The number of different ways are twelve ways. Multiplying main four kind of eye scans by three different position of computer via users, we obtain twelve different ways of negotiation.

Secondly we get our customers birthdate at welcome screen then we direct her/him to the different theme of our websites. He/she will feel very comfort with it, because it has been designed for his/her personality at that time. To describe our method firstly we should explain the biorhythm. Wilhelm Fliess, a highly respected and prominent doctor in Berlin, did pioneer work on biorhythms in the 1890s. Fliess, who had observed 23- and 28-day rhythms in many of his patients, began to collect statistics on the periodic

occurrence of fevers, childhood disease, and the susceptibility to disease and death. With these statistics in hand, Fliess believed he had detected rhythms which were fundamental to man's life. Dr. Fliess later developed two major biorhythm theories: first, that Nature bestows on man "master internal clocks" which begin counting time at birth and continue throughout life; and second, that one of these clocks regulates a 9-3-day cycle influencing man's physical condition and another regulates a 28-day cycle influencing emotions or degree of sensitivity. A widely read man, Fliess speculated on why these two rhythms should prevail. He believed, much as we do today, that man is essentially bisexual in nature, composed of both male and female elements. Fliess called the 23-day physical cycle the male cycle, since it influenced strength, endurance, and vitality. He considered the 28-day cycle to be representative of the female element in all human beings; it governed sensitivity, intuition, love, and creativity-the entire emotional spectrum. Wilhelm Fliess wrote extensively about the biorhythm theory, but the mathematics and statistics he used to support it were so massive and confusing that few people bothered to closely examine or to understand them. Still, the basic premise of the theory caught on. The idea of periodic rhythms in man created a considerable controversy among his colleagues, one which still exists today. Most scientists have accepted the fact that man's physical and emotional states are in constant flux, but many do not agree that these changes are influenced by regular biological cycles that start at birth. One of Fliess' contemporaries who kept an open mind to his ideas was Sigmund Freud, a man with extremely revolutionary ideas of his own at the time. Early in his career, Freud showed extreme interest in and admiration for Fliess' theories, and they soon became very close friends. One hundred and eighty-four letters from Freud to Fliess have been published; unfortunately, the replies from Fliess have been lost. Important ideas tend to spread rapidly in the scientific community. Dr. Hermann Swoboda, Professor of psychology at the University of Vienna, read Fliess' work while still a young man, and by the turn of the century was himself researching, lecturing, and writing on biorhythms. Swoboda, who detected a

periodicity in the occurrence of dreams and thinking processes, and in fevers, asthma, heart attacks, and the outbreak of illness, believed his own investigations confirmed Fliess' observations on the 23-day and 28-day cycles. Swoboda contributed to the theory the notion of the "critical" day, when the cycle shifts from high to low or low to high; a day of instability and usually of some stress for most people. When we seem to have more energy, vitality, and emotional control. There are days when these same feelings are at low ebb. And there are also those days when we react to situations in a totally unexpected way. There are many people who support the biorhythm theory. Bertram Brown, Director of the National Institute of Mental Health, has said, "These biorhythms have a lot of validity. They help explain in part everything from having a bad week to exciting scientific things like the varied effects medications have when administered at different times." Now we should add that biorhythm has different types such as physical, emotional, intellectual, etc.

The score depends on your age measured in days. When calculating the Age in Days the leap days of course have to be regarded. Also, the hour of birth and current time at the day (obtain by computer time) may influence the result. At this point we can predict our customers' biorhythm. For example if his/her emotional biorhythm is negative we should use hot color themes like red, orange and the pictures of spring, summer seasons. If his/her intellectual biorhythm is negative we should describe the site information in easy ways such that no deep thinking is required. If his/her intellectual biorhythm is positive we should describe the site information more completely which included any small information as well such that he/she enjoy that any little things is described. If his/her physical biorhythm is critical we should cool him/her down such that he/she feels friendlier with us. If his/her intellectual biorhythm is critical we should describe the site information in easy ways and remind him/her any selected items because he/she may forget his/her job. With applying different website themes and different words and descriptions we will be more successful. For more success to attract web attender is to apply his/her society psychological thinking. For this goal we should apply the IP of the web attender. Some of the researches shows if the web attender is from dry countries such as Arabic countries their society psychological thinking differs to wet countries such as Turkey. In the same way, their religions also is important factor for accurate prediction. Other factors such as web attender is a man or woman also can help us to improve our prediction. For instance men like rectangular shapes on the other hand ladies do not like it. Men like to decide logically at the same time, ladies like to decide emotionally. With this in mind we can direct the web attender to our best design and literature, which he/she feel friendlier and comfort. It means we should have, variable web depend on our customers' information. When a buyer enter a shop, the expert shopkeepers never act same. Expert shopkeepers depend on the face, age, time and some other factors of customers, act differently to be successful in his/her job. Our webs also should have this ability logically. By applying the logical thinking of expert sellers, to our webs we will be more

successful. When we try to make a note from the logical decision of expert sellers, we realize that biorhythm, age, origin society, sex, time and seasons are very important factors. As a matter of fact, variable actions of expert sellers, is their rule to successes. By applying these factors, intelligent webs also would be more successful in their duties. Intelligent webs should predict their customers. As an illustration, in winter customer with negative physical biorhythm should be welcomed to our web with hot themes. However in summer customer with positive physical biorhythm can be enter our web by cool themes. The themes and designs should have very different levels, for instance customer from hot country (predicted by IP), entered to our web in summer (predicted by date of computer), with critical physical biorhythm (predicted by his/her date of birth), negative intellectual biorhythm (predicted by his/her date of birth) and he is a young man should be directed to level five of cool themes, and level three of easy description, level four of text without need any logical explanations and level to for man design. Unintelligent webs actions is look like a shopkeeper who you entered his shop in snowing winter, and he gives you an icy cola to welcome you! At the same time intelligent webs in same case welcome their customers, with hot cup of coffee. Thus which shop one prefer for shopping? Now a days to have an intelligent webs means we respect our customers otherwise unintelligent webs have opposite meaning. In Fig. 5 as shown when the Composite Web customers enter the web he/she be asked his/her birth date. Birth date and the IP of the place which customer entered can help us to predict his/her future actions in composite web. Function to find the biorhythm and to detect customers' actions is shown below. In this function the birthday of customer and the present date, uses to obtain the customers' biorhythm. Which variable "di" in the Biorhythm is the total days who customer lives? Then by applying the formula ($\text{SIN}(360 * (\text{di} / 23))$) we can get the sinusoidal curve of Physical biorhythm. To get other biorhythm curves we can use same formula just by replacing "23" with other periodic time. It is shown below.

Thirdly we get our customers birthdate at welcome screen then we direct her/him to the different theme of our websites. He/she will feel very comfort with it, because it has been designed for his/her personality at that time. To describe our method firstly we should explain the astrology. There is number of universities which one can obtain BSc, MSc in astrology. Some of these universities are <https://www.astrologyuniversity.com/programs-of-study/>, <https://keplercollege.org/>, and many more around the world. Now what is astrology? Astrology is a science which can predict exactly one's personality due to the time and date him/her was born. For example if one born between 21st March to 20th April he is in house one with special characteristics and for the second house we add 30 or 31 days for example for second house if one was born between 21st April to 20th May and etc. [3], [4], [5], [6], [7] and Dr. Benebell Wen in the Understanding the Twelve Astrological Houses describes the manner of each house. Each house depends on the date of born. Here we write some examples of the book in the Understanding the Twelve Astrological Houses written by Dr. Benebell Wen House 1 is a Fire house, which means Fire signs—Aries (first house), Leo (fifth house), and Sagittarius (ninth house)—are empowered here, as are Air signs—Gemini (third house), Libra (seventh house), and Aquarius (eleventh house). These ascendant signs tend to have stronger, more distinct personalities. They tend to be more self-aware. Water signs—Cancer (fourth house), Scorpio (eight house), and Pisces (twelfth house)—are weakened here, and so these individuals may take longer to find themselves. Self-discovery is in itself a significant journey for such individuals. They are born seekers, compelled onto that journey of self-discovery because when they are born, in their young lives, they do not yet possess a strong, defined sense of who they are. House 1 is an angular (or cardinal) house, rendering it a house of action. It denotes aspects of who we are that lead in our life paths. Here is where we establish our goals. Angular houses show what drives us and has the most impact on our chosen life path. The other angular or cardinal houses are House 4, 7, and 10. As a Fire house, the first house is part of the Trinity of Life, which governs

our sense of personal identity, how we perceive life experiences, and how we form our own concept of self. The other Fire houses are Houses 5 and 9. House 2 is the house of your material foundation. This is the house to read for wealth, prosperity, assets, liabilities, and personal resources. We see into the native's livelihood and possession here in House 2 and also the native's approach, outlook, and attitude toward money or commerce. The second house tells of how money is earned, of financial matters, and how we secure ourselves here on the earthly plane so that who we are—the ascendant sign—can manifest. House 2 is an Earth house, which means Earth signs—Taurus, Virgo, and Capricorn—are empowered here, as are Water signs—Cancer, Scorpio, and Pisces. When Earth or Water signs are ruling House 2 in a chart, we see less financial insecurity. These natives tend to be born with better luck when it comes to having the needed resources for survival and livelihood. Mars, Jupiter, and Saturn in the second house tend to indicate volatility when it comes to personal finances or financial hardships. Planets occupying the second house can show a life path quite focused on matters relating to money, property, and wealth. An empty House 2 is often a good sign of tempered, consistent fortunes. Air signs—Gemini, Libra, and Aquarius—are weakened in an Earth house, so if an Air sign is in House 2, you may find greater fluctuations when it comes to personal financial security. House 2 is a succeeding (or fixed) house, rendering it a house of security. It denotes the order established in our life paths, the ways we seek or maintain order, and reactive forces within us. Succeeding or fixed houses denote what we build for ourselves. The other succeeding or fixed houses are 5, 8, and 11. As an Earth house, the second house is part of the Trinity of Wealth, which governs our achievements, glory, and helps us to define our sense of purpose. The other Earth houses are 6 and 10. The third house relates to our immediate setting and how that affects our mental development. The third house notes early childhood education, the social environment we grow up in, how we learn to communicate with the world, and matters relating to our early childhood. It can denote siblings, our relationships with our brothers and sisters, relationships with

neighbors, and our places of residence. This is the house of our mental intellect, Courage, the ability to achieve our aspirations, complete tasks, and how we use our voice or speech are noted here in the third house. House 3 is an Air house, which means Air signs—Gemini, Libra, and Aquarius—are empowered here, as are Fire signs—Aries, Leo, and Sagittarius. Natives with Air or Fire signs in the third house will have a more active mind. They seek constant, different, and challenging mental stimulation. They tend to be more capricious, changing their minds often. That is only because they are constantly learning new facts, stumbling upon new discoveries or new ways of thought that change their old ways. They also tend to be more opinionated. Earth signs—Taurus, Virgo, and Capricorn—are weakened in House 3, and so these individuals are more stubborn. Once they've made up their minds, they won't change it, even if secretly they start to see the merits of the other side. These are the individuals who are less likely to admit they are wrong, and less likely to say they're sorry. House 3 is a cadent (or mutable) house, rendering it a house of learning and development. It denotes our journey, the ways we evolve or progress in life, and the chances we incur. Cadent or mutable houses relate to how we develop, change, and the ways we exercise our free will when confronted with extenuating circumstances. The other cadent or mutable houses are 6, 9, and 12. Together these are the houses that denote how we apply human ingenuity. As an Air house, the third house is part of the Trinity of Relational Concepts, which governs the ways we communicate with others, the way we conceptualize relations, our verbal and social expressions, and how we interact with others. Air houses, along with 3, are 7 and 11. The fourth house is the seat of your soul. Here we see cellular or genetic memory. This is the house you read to better understand what is in your subconscious and in the unconscious parts of your mind. This house links to your family lineage, heritage, and beyond that, your past lives. This is the house that tells of where you come from. The fourth house is also the house of home and family. It can denote how you were raised, the domestic environment you grew up in and, most likely, the domestic environment you are going to keep in your own adulthood,

and also, your relationship with your biological mother. Here we can see the impact and influences of the biological mother on the native. I read the fourth house in conjunction with your moon sign to determine the past life that most influences the karma of your present life. The fourth house will offer insights into social status and matters of lineage. It is also an ancestral house, where we can reach far back through multiple generations to see where you come from. House 4 is a Water house, which means Water signs—Cancer, Scorpio, and Pisces—are empowered here, as are Earth signs—Taurus, Virgo, and Capricorn. Natives with Water or Earth signs in House 4 tend to be more family-oriented. They seek to settle down, establish their own homes earlier on in life, and are deeply connected to their heritage or family lineage. All that being said, there may be deeper insecurities that are latent in the subconscious that may arise later on in their lives that challenge what they thought they knew. Air signs—Gemini, Libra, and Aquarius—are weakened in House 4, and so these individuals tend to direct more of their personal energies outward, toward matters involving their social plane, social achievements, professional aspirations, or ambitions than inward toward home or family. These individuals tend to be less interested in “domestic bliss” and more interested in following their passions, public reputation, or life goals. They may even find themselves establish a family later in life. House 4 is an angular (or cardinal) house, rendering it a house of action. It denotes aspects of who we are that lead in our life paths. Here is where we establish our goals. Angular houses show what drives us and has the most impact on our chosen life path. The other angular or cardinal houses are House 1, 7, and 10. As a Water house, the fourth house is part of the Psychic Trinity, which governs our emotional plane and our soul. Water houses relate to the subconscious, the unconscious parts of the mind, the memory we do not remember, and the karmic accounting of our soul. The other Water houses are 8 and 12. The fifth house is the house of happiness. Often the fifth house is seen as confusing, because it represents many different areas of life. It can indicate procreation and your children. It can represent your recreation, your hobbies, and what you love to do

with your time. When we say procreation, we mean both fertility in terms of children and child-bearing, but also creativity and innovation. The fifth house can tell of what you produce. It is what you pass on in terms of a legacy, what you contribute to the world. The fifth house reveals what you enjoy, what brings you happiness, and so as a parent, would conceivably pass on that sense of happiness to your children. Thus, the fifth house also represents how you raise your children and the way you approach family life. Here we can also see what kind of parent you will be and how you might raise your children, based on your own childhood experiences and the past denoted by your fourth house. Traditionally, this is the house of pregnancy, love affairs, children, romance, pleasure, leisure, and the house of your heart. This is where we find the source of your inspiration and your motivations. What motivates you to lead the lifestyle that you lead? We will find that in House 5. Here, we can see what interests you, where your passions are, and the hobbies or interests you are inclined to spend your time and energies on. This is the house of happiness and leisure. This is the house of individual desires. House 5 is a Fire house, which means Fire signs—Aries, Leo, and Sagittarius—are empowered here, as are Air signs—Gemini, Libra, and Aquarius. Natives with Fire or Air signs in the fifth house tend to be optimistic. They devote a great deal of time to their creations. They tend to love children, seek procreation, and may have multiple “great love affairs” in their lives. Water signs—Cancer, Scorpio, and Pisces—are weakened here, and so these individuals may not be as focused on child-rearing, tend to seek that “one true love,” and are more single minded and loyal when it comes to romance. We described some examples which shows the different personality of each month. To win in any negotiation we need to predict the personality of the other side. Now by getting the date of birth of our composite web services’ attenders, we can predict his/her personality. Different kind of personality, likes different themes, different way of written text and different kind of logical proof to make us to win in negotiation. For example to be the winner in

negotiation with a person who was born on 6th April is quite differ to the way to win negotiation with one who was born on 8th November.

Fifthly Now we discuss the effect of environment on the people's prediction. If we apply the position of moon and important planets such as Mercury, Mars, Venus and etc. The food people use also is very important factor because any kind of vegetables, seeds, fruits and foods effect the H and W. When the he/she attends the web the position of moon related to earth is vey important. As you know when we look at the sky in night, if we see the moon is complete, it makes high water. It also affect our reaction to anything happend around us. It can be formulaized as H (+10), W (+10). Other planet also affect us. Such as Mercury W(+10), or Mars H(+10), W(-10). The effect of themes, red themes (H (+10), W(-10)), blue themes (H(+10), W(+10)), gray themes (H(-10), W(-10)) and etc.

When the earth is face to face of sun, it means during the day time the earth losses the energy. It means energy is directed from earth to sun. The energy losses of earth during the day time have five critical point. In the cirritical points of energy losses it is better to be in places such as mosques or other places with the shape of pyramid or opposite bowl shapes. In the places with those shapes the energy which

losses from earth toward the sun, traps inside of these places. Hence to be in these places help us to obtain the energy. If we seat such that our inside of our hands and inside of our feet be directed to up direction we can obtain the energy by inside of hands and foots. When the earth losses energy we should have minimum common surface with the direction of energy losses, it means we should stand in day time. In nights earth observe energy from sun, at this time having maximum common surface with flow of energy helps us to get more energy, it means by the position of sleeping, we observe more energy.

The way people like to see the world:

If their $H > \%50$ they like to see positive (they become poor but healty)

If their $H < -\%50$ they like to see negative (they become reach but not healty)

Positive energy makes HW normal, increase or decrease HW in good and correct way such that produce good feelings. The normal HW make person to achive his/her goal, look like to wings.

Negative energy makes H,W abnormal, increase or decrease HW in wrong way and produce bad feelings.

The abnormal H and W resist person to be successful, such as powerful enemy. Nobody can make a person to be defeated, except him/her self. Because nothing exist out of us. The way we look at the world, is from deep inside us. When we feel happy (normal H and W), we see the world lovely. On the other hand when we are not OK (abnormal H and W), we hate the world. Hence nothing exist out of us, every

thing is deep inside us, nobody is that much powerful to disturb us, or defeat us, except ourselves. Negative energy can produce very dangerous sickness. On the other hand positive energy can cure uncureable diseases. As a matter of fact, energy is nothing but the combination of H and W. The HW is in our hand to make it normal or abnormal. Our life in earth depend on HW, we live one time, enjoy it or hate it, it will be finished. Those enjoy it, life is heaven, those not enjoy life, it is like hell. But they teach us enjoyment wrongly, we think a lot of money, big houses, unusual sex, wrong eating, drinking alcohol, is enjoyable. But if it was write why these people suicide. Because the enjoyment is something else very simple can be achieved and can make very useful enjoyments in our life. The marriage is the midpoint of two points, one point husband's Predict Point (PP) and the other wife's PP. When we want to consider them as a family, we consider only one point, as described above. If the family has children, we find the midpoint of children as CPP; the midpoint of parents as PPP; then we can find the family midpoint which is the midpoint of CPP, PPP and then we obtain the FPP. For future use for family prediction we apply (Family Predict Point) FPP. Same as above we can find (Society Predict Point) SPP. For any prediction for a society just we can use SPP. It can be expand as middle east PP, or Asia PP and etc. Instead of midpoint, we can also calculate the average of Hs and Ws to find HW of a family, city or country.

To calculate PP for any society easily we can find special persons, who are differ to their family, city or country. Hence we should be very careful for any world program for a country, because in any society special persons can destroy the program. Because their PP is quite differ to SPP or CPP. Now at this point we introduced the coordinates and scales for prediction; person predict point as PPP or family predict point (FPP); city predict point (CPP).

Now we want to introduce important points related to XPP.

It means $-54 = ((+98) + H_x)/2$; $+96 = ((-73) + W_x)/2$, hence $H_x = (-206)$, $W_x = 265$. This data cannot belong to one person, because it is more than 100. Hence it can belong to at least three persons. It means we can find a group of more than two persons, who can make a group with the above person, to make good money and open his/her 1st chakra (if his/her PPP does not affected by other factors which has been described). By formulaize and apply it to our graph, we can see the effect of planet on the people's prediction. As a matter of fact a person with any place in our graph, wishes to go to origin. It means if he/she moves to H_0 and W_0 , he/she feels relax and comfort.

We want to introduce a new scale to categorize the people's prediction. This new scale has four dimensions. In this scale we introduce H, C, W and D as four dimensions. The people's prediction can be shown in this new scale. After using this scale we can find any person's prediction as a single point on it. By introducing this new scale gradually we can improve the science of people's prediction. In near future all of algebraically equations and linear or nonlinear programming can be applied on this science. Now by using our introduced people's prediction such as iridology, astrology and biorhythm, we try to show how we can map people. Firstly we have to describe that H and C are opposite to each other. For instance hotness and coldness or truth and false. If a person in the diagram is three in H, we can say that he/she is minus three in C. by using this theory we can easily cancel C from the diagram. Same prof can be down for W and D, hence we use only W in our diagram. Now we can map any people's prediction in a diagram with only 2 dimensions as H and W. Firstly we use astrologically people's prediction. By the person's birthday is in the Fig. 18 we can determine his/her H.

Function Astrology

(minnumberx,yx,tavalodminnumberx,tavalodyx,xxh,xxmi,tth,ttmi)

dim=minnumberx-tavalodminnumberx

dih=(((val(alltrim(xxh))*60+val(alltrim(xxmi)))-(val(alltrim(tth))*60+val(alltrim(ttmi))))/60)/24)

di=dim+dih

H= 100 * sin (360 *(di / 61))

W=100 * sin (360 *(di / 122))

EndFunc

By the function Astrology as shown above we can obtain the value of H, W for each person due to his/her date of birth.

For example if someone's birthday is 6th April so we calculate the difference days due to 21st March.

This value is 17 days, we put 17 instead of di in the formula: $H= 100 * \sin (360 *(di / 61))$. We obtain

$H=+98$. To obtain W we calculate the difference of 6th April to 21st January which is 77 days. We put 77 instead of di in the formula: $W= 100 * \sin (360 *(77 / 122))$. We obtain $W=-73$.

Now we find the point of him/her on the diagram with $H=+98$, $W=-73$. This point which explained above is the point of people's thinking. It is the conscience point for him/her. Which we call it CP. If people try to think and act as much as nearby their CP they feel more comfort and relax. By this action they think they will go to heaven. Because their idea of life is it. Now we try to introduce the living point.

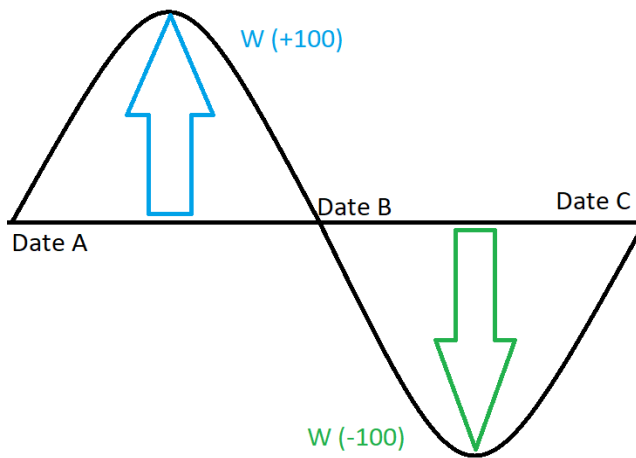

Fig. 22 Prediction of People's Action in their life (W)

In the Fig. 22 Prediction of People's Action in their life (W) is shown the Date A starts from 21st March, Date B is 20 days later, Date C is 20 days after Date B. This cycle after 40 days again starts from point of Date A. hence first Date A is 21st March second Date A is 29th April it means 40 days later. This cycle repeats any 40 days.

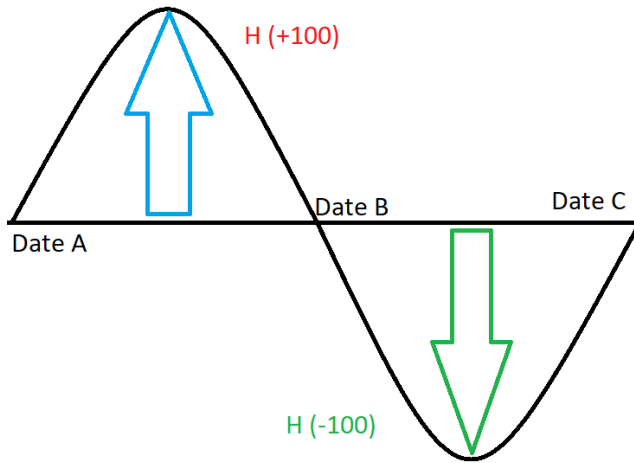

Fig. 23 Prediction of People's Action in their life (H)

In the Fig. 23 Prediction of People's Action in their life (H) is shown the Date A starts from 31st March, Date B is 10 days later, Date C is 10 days after Date B. This cycle after 20 days again starts from point of Date A. hence first Date A is 31st March second Date A is 28^h April it means 20 days later. This cycle repeats any 20 days. For any calculation, we find the difference of his/her birthday with the starting Date A for any cycle W or H.

Then we put it in the formulas as below:

$$H = 100 * \sin(360 * (di / 20))$$

$$W = 100 * \sin(360 * (di / 40))$$

For example: one's birthday is 6th April, the difference days with W cycle, which starts from 21st March is 17. We put 17 instead of "di" in $W = 100 * \sin(360 * (di / 40))$, we obtain $W = +45.4$.

To calculate H, the difference of days with starting point Date A (31st March) is 7. We put 7 instead of "di" in $H = 100 * \sin(360 * (di / 20))$ we obtain $H = +80$. This point for him/her is his/her way of living, it is Living Point (LP). Now we can predict the CP and LP which LP is the way of one's living (programmed

to do it) and CP is the way he/she thinks is the best way to be a good person, such that god loves him. As a matter of fact himself/herself by this way, really feel relax and comfort. Now we try to point out the place of points in graph, and the value of each part of the graph.

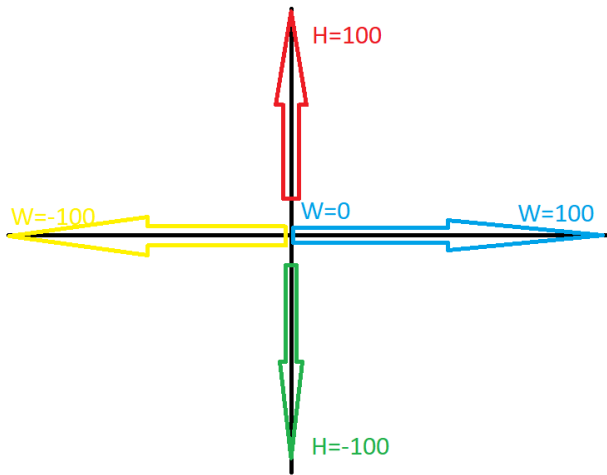

Fig. 24 the Prediction Graph

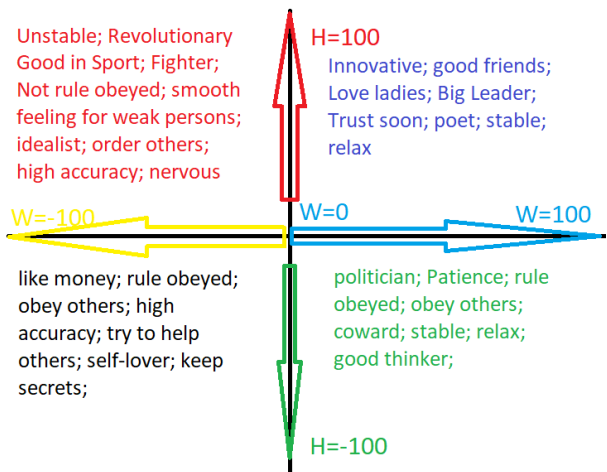

Fig. 25 property of each part of the HW graph

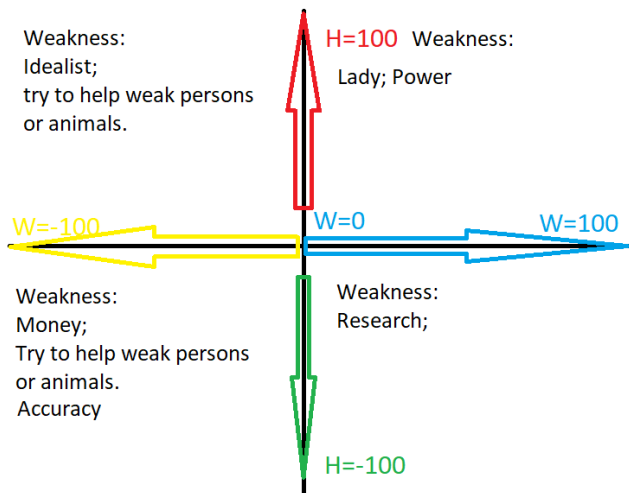

Fig. 26 Weakness of each part of the HW graph

The people see themselves as their CP, but others see them as LP.

At this point we want to summarize the life of a person. A person when was born, his/her program of life is LP, if he/she can be successful in his/her LP, he/she dreams to do the CP, because he/she is programmed to do it, to feel better in his/her mind, and feel has been accepted by his/her creator. As a matrix we can say

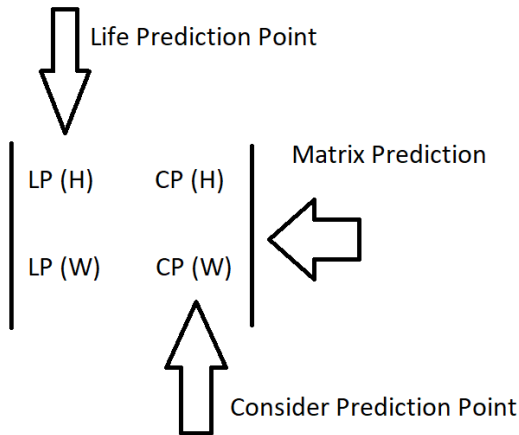

Fig. 27 Matrix Prediction

Person A with Matrix Prediction A and person B with MP B can understand each other better, when
 $\text{Matrix A} - \text{Matrix B} = \text{Matrix 0}$

If $\text{Matrix A} + \text{Matrix B} = \Omega \text{ Matrix I}$ (matrix I is a matrix which all elements are 1) it means these 2 persons
 can help themselves to grow mentally as much as maximum possibility in the world.

Even instead of Matrix I is the summation of 2 persons MP has equal elements in the rows, almost they
 can achieve to same result.

Now suppose person A with CP (H= (+98), W= (-73)) marries with person B with the birthday of 14th
 September. $H = 100 * \sin(360 * (di / 61))$; di is difference to 21st March=173 $W = 100 * \sin(360 * (di /$
 $122))$; di is difference to 21st May=113 Hence CP (H= (-85), W= (-44)). After marriage they come to the
 midpoint of family CP (H= $(-85+98)/2$, W= $(-44-73)/2$). It means the CP of them after marriage when
 they are with each other is CP (H= (+6.5), W= (-58.5)). If they have a son who was born on 18th May.
 $H = 100 * \sin(360 * (di / 61))$; di is difference to 21st March=57; $W = 100 * \sin(360 * (di / 122))$; di is

difference to 21st May=-3 or 365+3=368 Hence his CP (H= (-40), W= (-99)). The over all of family CP is CP (H= (-85+98-40)/3, W= (-44-73-99)/3)

Which is CP (H= (-9), W= (-72)). Now they will have another child who was born on 17th December. Her CP is CP (H= (+35), W= (-30)). The over all of family CP is CP (H= (-85+98-40+35)/4, W= (-44-73-99-30)/4). Which is CP (H= (+2), W= (-61.5)). For any XPP the money or first chakra condition, can be find by ((Birthday)+30days) we apply it in the introduced formula to find money condition of it. As above example, birthday is 6th, April hence 1st chakra is 6th, May. Now we calculate the HW for 6th, May which is 36 days differ to 21st March. Hence we apply di=36 in the formulas : $H= 100 * \sin (360 *(di / 61)) = (-54)$

$W=100 * \sin (360 *(di / 122)) = (+96)$ Hence for point PPP (+98, -73), 1st Chakra is (-54, +96). This person for opening 1st Chakra should join with a PP to obtain the (-54, +96) as midpoint. Person A with CP (H= (+98), W= (-73)) to be rich should go to point CP (H= (-54), W= (+96)). His H from +98 to -54 is very difficult and his W from -73 to +96 also very difficult. But for family overall CP (H= (+2), W= (-61.5)) to CP (H= (-54), W= (+96)) he needs to change H from +2 to -54 and W from -61.5 to +96.

Hence we should bring down H -56 degree and W bring up to 157 degree we should wet them and cool them. To summarize

person A CP (H= (+98), W= (-73))

After marriage CP (H= (+6.5), W= (-58.5))

After 1st child CP (H= (-9), W= (-72))

After 2nd child CP (H= (+2), W= (-61.5))

Rich Point Person A CP (H= (-54), W= (+96))

Another Person B birthday is 18th May so his CP is CP (H= (-40), W= (-99)) his rich point is $H= 100 * \sin(360 * (di / 61))$; di is difference to 21st March=57+30; $W=100 * \sin(360 * (di / 122))$; di is difference to 21st May=+27 Hence his rich point CP (H= (+44), W= (+98)).

Person B CP (H= (-40), W= (-99)) to become rich

$$CP (H= (+44), W= (+98))$$

Another Person C birthday is 17th December so his CP is CP (H= (+35), W= (-30)) his rich point is $H= 100 * \sin(360 * (di / 61))$; di is difference to 21st March=271+30; $W=100 * \sin(360 * (di / 122))$; di is difference to 21st May=206+30 Hence his rich point CP (H= (-40), W= (-40)).

Person C CP (H= (+35), W= (-30)) to become rich

$$CP (H= (-40), W= (-40)).$$

Another Person D birthday is 14th September $H= 100 * \sin(360 * (di / 61))$; di is difference to 21st March=173 $W=100 * \sin(360 * (di / 122))$; di is difference to 21st May=113 Hence CP (H= (-85), W= (-44)). Rich point di for H is 173+30=203; H=+88, di for W is 113+30=143; W=+88.

Person D CP (H= (-85), W= (-44)) to become rich

$$CP (H= (+88), W= (+88)).$$

The formulas for LP are $H= 100 * \sin(360 * (di / 20))$; $W=100 * \sin(360 * (di / 40))$.

For Person A birthday is 6th April so his LP is LP (H= (+80), W= (+45)) his rich point is $H= 100 * \sin(360 * (di / 20))$; di is difference to 21st March=17+30; $W=100 * \sin(360 * (di / 40))$;

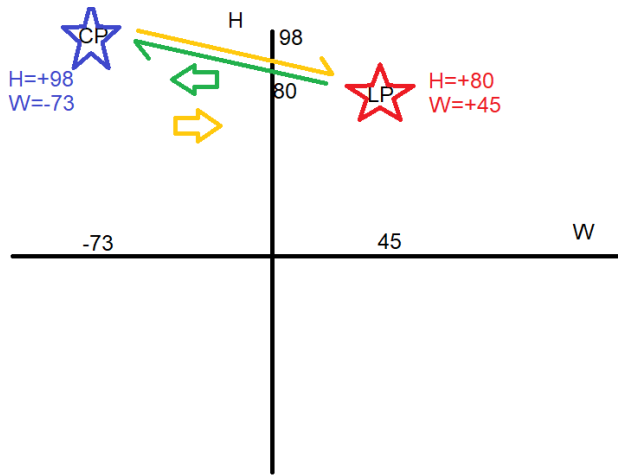

Where di=di (h)-10, hence di=47-10=37 Hence his rich point LP (H= (+44), W= (+98)).

Person A LP (H= (+80), W= (+45)) to become rich

LP (H= (+80), W= (-45))

Human which believes in god their point of life will be changed from LP to CP. Person A if believes in god very well his point of life is CP and if he is not believes in god his point of life is LP.

His CP (H= (+98), W= (-73)) and his LP (H= (+80), W= (+45)).

Fi8. 28 CP and LP for human

Now we explain how a person can become a religious or anti- religious as you see the border LP to CP will help human to understand the god. On the other hand the border CP to LP make human to forget the god. For this example we can easily determine the borders CP-LP (CL) and LP-CP (LC). $CL=LP-CP$ and $LC=CP-LP$ hence the borders $CL = -18,118$ and $LC=18,-118$ are the ways human can change to religious or non-religious person.

As shown in Fig. 28 the green border LC make exempld person religious and the yellow border CL make him non-religious.

Any person out of this diagram is dangerous person as shown in Fig 29.

Fig 29. Shows dangerous points

As shown in Fig 29 dangerous places of human is shown. If a human's prediction located in one of these parts (1, 2, 3, 4) what he/she dose. In part 1 he/she easily kill others and he/she does not care even about what he/she did (easily can be find). In part 2 he/she easily kill others but afterward he/she does care about what his/her wrong action (he/she introduce himself/herself). In part 3 it is very hard for them to kill others mostly they think and ask someone else to do (it is very hard to find them). In part 4 it is enjoyable for them to kill others mostly they think and make a big misunderstanding between third parties to kill themselves and nobody even imagine he/she was responsible or guilty. Now suppose we want to make serial killer from exemplated person first of all he/she should not understand the god, because if he/she thinks about the god he/she does not do wrong thing. Then we should force him to go out of the region and part 1 is the nearest place. As we know his/her LP coordinate is (H=+80, W=+45) the best vector for our purpose is increasing his/her H and W immediately. As fast as we increase his H and W,

he/she become serial killer, who never mind about his/her negative actions. On the other hand we can help him to study and become a famous scientist. If we decrease the H, he enters to the place of studying and thinking. Now we know, human's couple of dimensions, religious dimension, body dimension and how we can make human more/less religious, how we can help him to study better/worse, and etc. Due to the day of web attendance (or any action) his/her birthday, age and biorhythm can be calculated. By calculating the age we consider it as $((40-\text{age}) \cdot 1/2 \cdot (+H))$, $((40-\text{age}) \cdot 1/2 \cdot (+W))$ and by detecting biorhythm if physical rhythm increases it means H increases and W decreases. If intellectual increases, H decreases and W increases. As emotional increases it means H and W decreases and if intuitive increases, H and W increases. It means by biorhythm calculation any value we find we consider as below. Physical=P, Emotional = E, Intellectual = I and Intuitive = S. $H = (P \cdot 0.1) + (S \cdot 0.1) - (I \cdot 0.1) - (E \cdot 0.1)$, $W = (S \cdot 0.1) + (I \cdot 0.1) - (E \cdot 0.1) - (P \cdot 0.1)$. After calculating the above values we can add these values to the Astrological values (calculated above). Other important factors are sex (if the web attender is a lady H=-5), the season of attendance (winter time H=-5 and summer time H=+5), place of web attender (will be defined by his/her IP) (if his/her place is hot place the maximum value of H=+5 and if his/her location is cold the minimum value of H=-5), he/she has stress or not (can be found by key stroke, of the web attender) (if stress exist H=-10 should be applied) and the time of his/her attendance due to his/her location (if it is day time maximum H=+5 and if it is night time minimum H=-5). As a matter of fact the iridology (eye scan) also is very important. Because it shows the values of H, W and sickness of web attender. The iridology (eye scan) also shows the diseases, the existence of the points in the eye scan indicate diseases. The color of these points as become darker, show the diseases are more serious. But we should apply positive H, W or negative. The answer to this question depends on the last few questions (sex, season, IP, location, time of attendance and considering he/she has stress or not, if the sum of these questions was less than -50, we add another H=-10 for points in the eye scan, otherwise we consider

H=0). The persons' prediction by astrology shows the point of them on the diagram. The rest of predictions as explained above change the place of the persons' prediction point in diagram. Sometimes the coordinates of the people's prediction point may exceed 100 or it may be less than 100 due to the extra prediction information. In this case the person's situation is critical. For example if H becomes more than 100 he/she starts fighting with others or if W becomes more than 100 he/she does not feel sorry for anybody he/she easily hurt without any negative feelings. On the other hand if W becomes less than -100, he/she is very sensitive, even he/she cannot hurt a mosquito.

At this point we want to introduce H,W of the different things around us including plants, smells and etc.

As you see every thing around us can be mapped on the H,W. Hence every kind of smells, plants, foods and etc can effect our personal H,W. If the exemplified person with the CP information as,

CP=(H=%98, W=-%73) wants to feel better, he/she can use the foods, plants or smells such as opposite to his/her CP. It means he/she can use the plants, foods, smells with H,W (H=-%98, W=%73). Hence the sum of CP and feeding become near to origin.

CP+Feed=%98+(-%98), -%73+%73=0,0. This feeding gives good feeling to the predicted person. This kind of foods, smells, plants can be find from above (H,W of things around us).

This rule almost is true for the persons around us. For example for predicted person with CP=(H=%98, W=-%73) and LP=(H=%80, W=%45) if he/she speaks, negotiates with person described as CP=(H=-%98, W=%73) and LP=(H=-%80, W=-%45), he/she feels the best. The reason is because of (CP person A)+(CP person B)= (0,0) and (LP person A)+(LP person B)= (0,0).

The information about the effect of frequency on the brain of human and as a result to special part of body is not proved exactly, but it is under research. 0.1-1 Organ/muscle resonances [SS] 0.1-3 Delta range, according to [NEU+CRI] - deep sleep, lucid dreaming, increased immune functions, hypnosis

[NEU]; Decreased awareness of the physical world. Access to unconscious information. Dominant brainwave in infants under one year old. This range normally decreases when we focus, but this doesn't happen when a person with ADD - delta waves actually increase when they try and focus. [CRI]; "Monroe focus 21" [MB2 via DW]; 0.16 - 10 - Neuralgias [AT] 0.18 - 10 - Mod. therapy [AT] 0.20 - 0.26 - Dental pain [AT] 0.20 - 10 - Post-traumatics [AT] *17* 0.28 - 2.15 - Alcohol addiction [AT] 0.28 - 10 - Arthritis [AT] 0.30 - 0.15 - Depression [AT] 0.30 - 10 - Cervobrachial syndrome [AT] 0.37 - 2.15 - Drug addiction [AT] 0.40 - 10 - Confusion [AT] 0.45 - 10 - Muscle pain [AT] Below 0.5 - Epsilon range, extraordinary states of consciousness, high states of meditation, ecstatic states of consciousness, high-level inspiration states, spiritual insight, out-of-body experiences, Yogic states of suspended animation. [CNR] 0.5 - very relaxing, against headache [MB], for lower back pain [AS] ; Thyroid, reproductive, excretory stimulant, whole brain toner [SS] 0.5-1.5 Pain relief [SS + CMP] ; endorphins, better hypnosis [SS] 0.5-3 Delta range, according to [RA] 0.5-4 Delta range, according to [SS,PWM+AWI]. Deep dreamless sleep, trance, suspended animation [SS]; Anti-aging. Reduces amount of cortisol, a hormone associated with stress & aging. Increases the levels of DHEA (anti-aging) & melantonin (decreases aging process.) [BAR]; Associated with unconscious mind & sleep state - in conjunction with other frequencies in a waking state, "Delta acts as a form of radar – seeking out information – reaching out to understand on the deepest unconscious level things that we can't understand through thought process." Provides intuition, empathetic attunement & instinctual insight. [AWI]; Conducive to miracle type healing, divine knowledge, inner being & personal growth, rebirth, trauma recovery, "one with the universe" experiences (samadhi), near death experience, characterized by "unknowing", merely a blissful "being" state such as deep sleep or coma. [PWM via DW] 0.9 Euphoria [SS] 0.95 - 10 - Whiplash [AT] 1-3 - Delta: deep, dreamless sleep, trance state, non-REM sleep [??]; profound relaxation, restorative sleep, feelings of tranquility&peace, if one can remain aware [VUG via DW] 1.0 - Feeling of well-being, pituitary

stimulation to release growth hormone; overall view of inter-relationships; harmony & balance [MB]

recollection, imagery, dreamlike, switching thoughts, drowsiness; "oneness", "knowing", repository for memories, emotions, sensations. Can lead to trance-like states. Theta strong during internal focus, meditation, prayer + spiritual awareness. Reflects state between wakefulness+ sleep. Relates to subconscious. Observed in anxiety, behavioral activation+behavioral inhibition. Promotes learning+memory when functioning normally. (I think they mean it helps you process what you've learned - if you tried to actively learn while in the theta state, I doubt you'd have success - but sometimes the theta state can give your subconscious a chance to chew the proverbial fat that you've learned during the day, and digest it.) Abnormal in awake adults, but seen in children up to 13 years old. Suppression of theta can help concentration/focus of attention. [CRI] 3.6 (a remedy for) anger & irritability [ESR] 3.84 Associated with the liver/pancreas [TOS] 18 3.9 (a remedy for) unsociable behavior [ESR]; Theta/Delta brainwave range - crystal clear meditation, lucid dreams, enhanced inner awareness, "facilitates easy access to inner resources & creates space for inner peace + self-renewal". [PWB]; bursts of inspiration, twilight sleep learning, deep relaxation, reverie, high levels of awareness, vivid mental imagery. Hypnopompic & Hypnagogic states [NSS via DW]; Military remote viewers operate in this range [RVX] 4.0 - 8.0 HZ Theta State according to [AWI]+[VUG via DW] - present in dreaming sleep, deep meditation, storehouse of creative inspiration, spiritual connection, subconscious mind [AWI]; creative

insight, twilight ("sleep") learning, vivid mental imagery. Found in advanced meditators [VUG via DW]

4-12 Skeletal muscle resonances [SS] 4.0 - Enkephalins, Extrasensory perception [MB]; Astral Projection, Telepathy, "Seduction mindset" [EI-d]; Catecholamines, vital for memory & learning, respond at around 4 HZ. [PSI]; Subconscious Problem Solving/Full Memory Scanning (if one can manage to stay awake) [RA+CAV via DW]; Associated with object naming, an important aspect of memory [TDM via DW]; "Those who suffer from Chronic Fatigue exhaust very easily. When moved to 4HZ these individuals showed marked improvement in the length of time between the occurrence of exhaustion after certain exercises were completed." [NYT via NEU] 4.11 Associated with kidneys (Effects=strength) [TOS] 4.5 Shamanic State Of Consciousness/Tibetan Buddhist Chants [MMF via DW] 4.5-6.5 Wakeful dreaming, vivid images [SS] 4.6 Associated with spleen & blood (Effects=Emotional Impulse) [TOS] 4.9 - Introspection [SS]; Induce relaxation, meditation, & deeper sleep [ESR] 5.0 - unusual problem solving [i;½] reduced sleep needed, theta sounds replacing need for extensive dreaming [INT] ; relaxed states, pain-relief (beta endorphin increases of 10-50% reported) [INT]; Alleged Sphincter Resonance (mechanical)(not good) [TB] 5.0 - 10.0 Relaxation [NEU] 5.14 Associated with stomach (Effects=Emotional Acceptance) [TOS] 5.35 Associated with lungs (Effects=Oxygen, Heat) [TOS] 5.5-8.0 "Theta2" frequency range : .. Consists of trains (long runs) of rhythmic frontal activity centering at 6.5-Hz with amplitudes reaching the 50-100 uV (micro-volt) range. .. Is induced in some people by the performance of a mental task such as mental arithmetic, tracing a maze, counting the number of cubes piled in a three-dimensional representation, & imaging a scene. .. More common in extroverts with low traits of neurosis & anxiety. Because Theta2 is associated with mental tasks & its influence is seen in evoked potential latencies, Mizuki (1987) believes that the appearance of Theta2 closely relates to mechanisms of attention or arousal. [DW] 5.5 - Moves beyond knowledge to knowing, shows vision of growth needed ; "Inner Guidance" [SS]; Inner Guidance,

Often dominant in certain kinds of meditation, alpha waves have for the past twenty years been associated with calm, lucid mental states (the "alpha state"). They're also often detected during dream sleep. This pattern typically occurs in daydreaming, relaxed awareness, guided or focused imagery & smoothly rhythmic athletic activity. Proponents of this change indicate music played with a 432 tuning is more pleasant, brighter, and easier on the ears. They also indicate it promotes

meditation and relaxed states, and the tuning as a whole resonates with the heart chakra. The tuning has been presumably used by ancient Egyptians, ancient Greeks, and in some classical music (example - Giuseppe Verdi). If we want to map different frequencies on the HW is not easy.

Now we discuss about the effect of words on the people. The most words a person hear during his/her
life is her/his name and her/his mother's name. In the first step we consider each character effect by a
number such as:

After analyzing these information, the new approach is proposed to predict service selection as well as
directing composite web user to our goal. As composite web service be better to predict and negotiate
with users, customer feels better, and they prefer to do their shopping, traveling and other businesses by
using this kind of intelligent web services. Hence this kind of intelligent web services, are more profitable
than unintelligent composite web services.

4 Conclusions

In this research, the main aim is to develop a new method to predict service selection by users such that
they not only feel better but also obtain the best goal depend on their personlity. In order to achive this

goal, firstly we introduce a new scale to predict people which in this feature all of prediction process will be done under mathematics formulas. Also we use the iridology, biorhythms astrology and the position of moon and other important planets. After analyzing these information, the new approach is proposed to predict service selection as well as satisfying their comfort feeling (hypnotizing). As web-customer feels better he/she prefer to do his/her shopping, traveling and other businesses by using this kind of intelligent web services (online app or games). The percentage to predict correctly seventy nine percent.
