Accredited by

Global Authority on
Occupational Certification

Master's Degree

Selinus University is a distance learning institute that provides its programs worldwide. It includes 7 faculties and nearly 200 study programs so as to meet adult students' needs; we assume that our potential students are willing to find a job in industry and trade or to become professionals or companies' titleholders.

Selinus University has a clear vision of its work, study programs and our international students' needs. We claim that research, innovation and professionalism are the basis of every life and work project.

Through the APEL (Accreditation Prior Experiential Learning) validation system, our institution is engaged in the students' profiles evaluations in order to outline professionalism and skills of its potential graduates, hopefully, the future global market leaders.

The modern job market operates on an increasingly larger scale; this awareness strengthens our conviction that any study project has to be supported by precise strategies useful to the students.

Selinus University strategic vision

The main objective of Selinus University is to strengthen the professional and academic profile of adult students willing to access jobs, enhance their career or engage in new projects implementation.

Our students are often managers or already qualified professionals. They can benefit from our distance learning system since they won't need stealing time to their jobs nor neglecting their families.

We trust every adult student's professional goals awareness and we strongly believe in people's capacity for self-determination. Carrying out a distance program without campus attending commitment will let the student prove his/her personality, improve his/her self-esteem and achieve the set goals.

For this reason, we have implemented seven faculties and almost two hundred study programs, many of which are "alternative" to traditional universities; it will be easy for the student to find the right path to professional success.

Faculties and study programs:

Arts & Humanities

Business & Media

Transpersonal Psychology

How to get a Master's degree

According to the British and Commonwealth systems, a Master degree has an average duration of two years. To achieve a Selinus University Master title, you need 40 Uniselinus Credits, equivalent to 80 ECTS beyond the Bachelor's degree.

A Selinus Master's Degree can be obtained either through a system of ordinary studies (that involves taking all the course exams), or through the APEL assessment; the latter is a validation system of every candidate's previous professional experience. That obviously allows a proportional reduction in credits program access requirement and, consequently, in exams to be taken. In case the CV APEL validation reaches 25 credits, the final thesis can be directly accessed. The Master's degree can be either humanistic (M. Arts) or scientific (M.Sc.). In addition to the credits obtained, a final thesis (at least 60 pages) is compulsory.

The Master degree is a high level of academic specialization that allows access to PhD programs besides acting as a valid job springboard. Selinus innovative and flexible study method evaluates all previous students' activities, as well as their skills and profiles.

Selinus University's study programs are distance and online courses whose exams are not traditionally carried out; they consist in reports writing (Exam units) on specific textbooks to be read and studied.

Candidates

Selinus University Masters' candidate are usually professionals, entrepreneurs, managers, cultural operators, high-profile people in possession of a Bachelor's degree or equivalent.

Master's program access requirements are assessed through a strict CV verification and evaluation process and do not strictly follow local educational models: each country has its own academic framework. That means that government accreditation guidelines for programs do not always coincide all over the world.

Selinus issues unregulated higher education programs based on the constitutional freedom to organize education. It is to be understood that private certificates and degrees may not guarantee access to government employment. Given that, Selinus University operates in total transparency and so far, its strict assessments and accreditations have allowed its graduates to access high profile jobs in multinational corporations, NGOs, private companies as well as unregulated professions. Before enrolment, the candidates' academic assessment and the rigorous real skills, attitudes and abilities verification are the perfect guarantee of the match between their specific professional competence and their achieved degree.

Costs

The entire program cost is determined by the 40 credits number required to obtain the degree. The cost per credit is 150 euros; the total is therefore € 6000. In case the Master program relies entirely on APEL validation system, CV credits validation may gain a cost/credits reduction. Thus, the cost ranges from a minimum of 2.000 to a maximum of 6.000 euros.

It is necessary to send a thoroughly detailed CV in order to know the study program cost. Within a few days, the Secretariat will process the candidate's CV, giving account of the credits number earned by the student. This result will be communicated through a document called Provisional Certificate: it displays the program final cost and it is non-binding for the candidate.

How to enrol

If you are willing to apply to the Master program, you need to fill in the Application Form, indicating the Master you wish to pursue and the relevant academic discipline (Major) - for example: Master of Science in Psychology, or Master of Arts in History. Attach your CV, a passport size photos and a copy of your ID card or passport.

If your application is successful, you will receive a Certificate of Enrollment and the payment plan as indicated in your application.

Accreditation - Education Quality - Reputation

The accreditation process is non-governmental and discretionary. A distance education university usually appeals to a private, regional or professional association, in order to be accredited. When any university applies, the accrediting institution performs an overall assessment and grants the accreditation only when deemed appropriate, according to its own accreditation criteria. No worldwide accreditation standards are currently available for any distance learning higher education institutions such as Selinus University.

A distance learning degree can be useful for many purposes, but not for all. It can give access to many careers and jobs, whereas others require government-accredited diplomas.

For this reason, before enrolling, we suggest our potential students to verify the correct degree use in their country.

Professional reputation depends on people's skills and competency, that are only virtually represented by the obtained degree. It is therefore necessary to bear in mind that any company or employer relies more on actual knowledge and expertise owned by aspiring employees, rather than on their degree. For most companies, the completion of a distance university program is as valid as attending courses in a formal university campus.

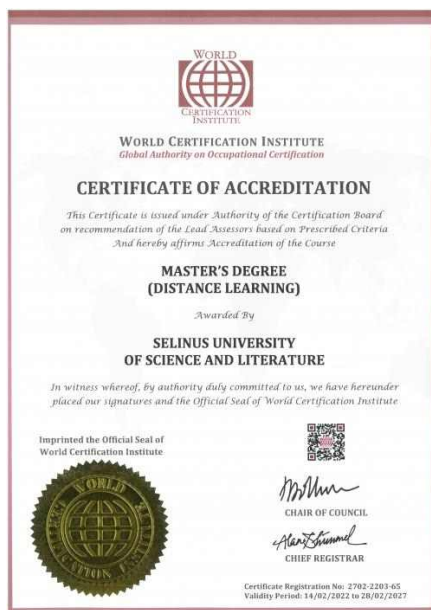

Selinus University of Science and Literature has the WCI (World Certification Institute) accreditation

Selinus University is globally accredited by the WCI (World Certification Institute), a leading global certifying body that grants credential awards to individuals and educational institutions. The WCI accredits courses and study programs delivered by universities, colleges, schools, professional institutions and training companies.

WCI has accredited Selinus University of Sciences and Literature after carefully reviewing, validating and authenticating its study programs.

The World Certification Institute examined the following parameters: program content and duration, teacher qualifications and expertise, financial strength and integrity of course providers and, most importantly, titles relevance for professional and career development, in line with Selinus University's mission.

Selinus University's higher distance education is accredited by recognized private and international bodies, since it meets their educational quality standards.

Quality Management Certification

Selinus University is ISO 9001:2015 certified and ISO 29990:2010 LSMS certified

Business School is ISO 21001:2018 EOMS certified

In February 2022, the Selinus University of Sciences and Literature was awarded the **ISO 9001 Quality Management Certification**, for which organisations must undergo thorough conformity checks by an accredited certification body, and which attests the quality of Selinus University's systems and solutions for its students.

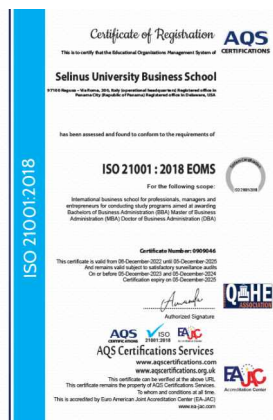

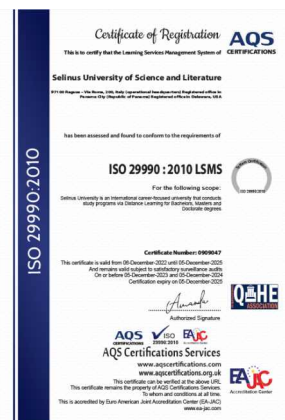

Since December 2022, it is also certified **ISO 29990** as an international university that offers career-focused study programs via distance learning for Bachelor's, Master's and PhD degrees.

Selinus University Business School is also certified **ISO 21001** as an international school for professionals, managers and entrepreneurs that want to get a Bachelor of Business Administration (BBA), a Master of Business Administration (MBA), a Doctor of Business Administration (DBA) or a Global Executive PhD.

ISO standards are defined by the International Organisation for Standardisation (ISO) and outline the requirements for quality management systems within organisations and companies, both in private and public sectors.

Guarantees of Certifications

The ISO 9001, 29990, 21001 certifications attest that Selinus University adopts a quality management system which is centered on the needs and expectations of its students. Furthermore, it guarantees the high standards of its services, by their continuous monitoring and improvement.

Selinus University has been granted full accreditation by AAHEA (American Association for Higher Education and Accreditation)

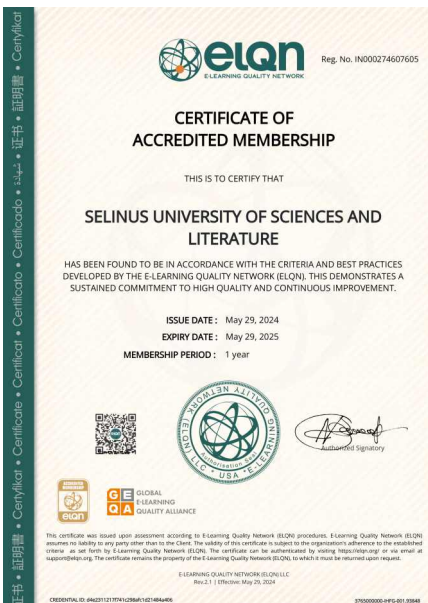

The AAHEA is the oldest non-profit association in the United States dedicated to the advancement of higher education.

The American Association for Higher Education is an independent professional organization that promotes change and reform in higher education, fosters quality teaching and learning at the college and university level, and promotes public awareness of the value of higher education in the United States and around the world.

The goals of the AAHEA include: identifying and analysing critical problems, trends, and developments in higher education and seeking constructive solutions; helping to coordinate the efforts of educational institutions and agencies at all levels; encouraging the improvement of professional work in all areas of higher education; and developing a better understanding by the general public of higher education and higher education as a profession.

ELQN ACCREDITED SELINUS UNIVERSITY: A COMMITMENT TO THE HIGHEST STANDARDS OF E-LEARNING

The E-Learning Quality Network (ELQN) brings together a wide range of organizations committed to ensuring and improving the quality of e-learning. The network includes training providers from all over the world - such as universities, business schools, higher education centers and online training platforms - who contribute through innovative methodologies to promoting excellence in education, driving innovation and fostering collaboration in e-learning globally.

The main aspiration of ELQN - and of Selinus University as well - is a future in which every digital learner is empowered not only to acquire knowledge, but also to develop a lifelong passion for learning, growth and innovation.

Selinus University has the QAHE accreditation
(International Association for Quality Assurance in Higher Education)

The QAHE, registered in Delaware (USA), is an independent, private and international organization which is funded through fees charged for its accreditation services to higher education institutions, certification bodies, e-learning management system providers and training organizations.

QAHE is an authority in recognizing higher education institutions for research performances, student services and quality of teaching. Furthermore, QAHE has been assessed conform to the requirements of ISO 9001 (Quality Management System), ISO 29990 (Non-formal Education and Training Services Management System), ISO/IEC 17011 (requirements for the competence, consistent operation and impartiality of accreditation bodies assessing and accrediting conformity assessment bodies), ISO/IEC 17040 (general requirements for the peer assessment process to be carried out by agreement groups of accreditation bodies or conformity assessment bodies), ISO 20000 (Service Management System) and ISO 27001 (Information Security Management System).

With its huge network and worldwide credibility, QAHE accreditation certifies Selinus University's commitment to provide quality education, in compliance to the highest international standards.

Thanks to this partnership, a validation procedure of the credits obtained allows Selinus University graduates to obtain the certificate of equivalence in the USA. The CUFCE (<https://www.cufce.org/>) is an evaluation agency that meets the requirements of the National Curriculum Evaluation Services (NCES) and UNESCO for accredited professional evaluators (PEs) to evaluate curricula and other academic programs of universities, colleges and schools seeking regional or national accreditation in the US.

California University FCE is organized under the Nonprofit Public Benefit Corporation Act for public and charitable purposes and is subject to California Franchise Tax Exempt Status. It is registered with the State of California Registrar of Deeds. California University FCE has applied for and been granted a five-year renewable institutional registration by the Registrar of Los Angeles County, California, current registration number: 20100880209.

Selinus University graduates can apply to CUFCE to obtain the Dual Degree.

For further information, please contact via email our secretariat.

NOTE

Sometimes, our students - that are managers, professionals or entrepreneurs - need to obtain licenses or to transfer academic credits to/from other institutions. However, in the United States many licensing authorities require accredited degrees as a basis for issuing licenses. Therefore, the recognition of non-accredited university degrees, either for academic or professional purposes, may be discretionary.

In the event that a potential student wishes to enroll at Selinus University in order to access a governmental or public job or career, we recommend that the requirements are ascertained beforehand with the relevant authorities by the candidate, to assess whether the degree is useful or not for the desired work purposes. Selinus University does not intervene in such verification process.
